

MOHAMED ABDULRAHMAN

CYBERSECURITY STUDENT | NETWORK SECURITY | SECURITY OPERATIONS

Cairo, Egypt • +20 101 022 1829 • mohamedabdulrhman008@gmail.com
Portfolio • GitHub • LinkedIn

PROFESSIONAL SUMMARY

Cybersecurity student at Cairo University with practical project experience in network security, security operations fundamentals, cryptography, C++, Python, Linux, and databases. Implemented RSA, AES, and DES in C++ and built applications using Object-Oriented Programming and data structures. Completed Cisco CyberOps Associate, Cisco Introduction to Cybersecurity, and NTI Network Security Training.

EDUCATION

Cairo University – Faculty of Computers and Artificial Intelligence 2024 – Present

B.Sc. in Cybersecurity · Third Year Student
Relevant Coursework: Computer Networks, Cryptography, Data Structures, Database Systems, Linux Fundamentals, Software Engineering

SELECTED PROJECTS

Cryptography Algorithms Implementation — C++

- Implemented foundational cryptographic algorithms including RSA, AES, and DES.
- Applied encryption, decryption, key generation, and core cryptographic concepts.
- Focused on symmetric and asymmetric cryptography principles. [GitHub](#)

Hospital Management System — C++

- Developed a console-based hospital management application using Object-Oriented Programming.
- Implemented Binary Search Trees, Stacks, and Queues to manage and organize application data.
- Applied data structures and modular programming concepts. [GitHub](#)

Music Player & Playlist Application — C++

- Developed a console-based music management application using OOP principles.
- Implemented playlist creation, navigation, and music management functionality.
- Applied modular programming and object-oriented design concepts. [GitHub](#)

CERTIFICATIONS & TRAINING

- CyberOps Associate · Cisco Networking Academy | Completed & Certified
- Introduction to Cybersecurity — Cisco Networking Academy | Completed & Certified
- Network Security Training — National Telecommunication Institute (NTI) | Completed & Certified
- HCIA-Cloud Computing V5.5 Course · Huawei ICT Academy | Completed

TECHNICAL SKILLS

Cybersecurity	Network Security, Security Operations Fundamentals, Cryptography
Programming	C++, Python
Web	HTML
Databases	MySQL, SQL Server
Systems & Tools	Linux, Git, GitHub
Core Concepts	Object-Oriented Programming (OOP), Data Structures, Problem Solving

SOFT SKILLS

Problem Solving · Quick Learning · Team Collaboration · Effective Communication
