

MOHAMED ABDULRAHMAN

CYBERSECURITY STUDENT | NETWORK SECURITY | SECURE SOFTWARE DEVELOPMENT

Cairo, Egypt • +20 101 022 1829 • mohamedabdulrhman008@gmail.com

GitHub: github.com/mohamedabdulrhman • LinkedIn: linkedin.com/in/mohamed-abdulrhman-8482a426

PROFILE

Cybersecurity student at Cairo University with a hands-on foundation in C++, Python, computer networks, cryptography, Linux, databases and secure software development. Completed practical work in RSA, AES and DES, data structures and object-oriented applications. Completed Cisco CyberOps Associate training and NTI Network Security training with certificates. Actively building toward cybersecurity, network security and security operations roles.

EDUCATION

Cairo University — Faculty of Computers and Artificial Intelligence

2024 – Present

B.Sc. Cybersecurity · Second Year Student

Completed coursework: Computer Networks · Cryptography · Data Structures · Database Systems · Linux Fundamentals · Software Engineering

CERTIFICATIONS & TRAINING

CyberOps Associate — Cisco Networking Academy [[Completed](#)]

Network Security — National Telecommunication Institute (NTI) [[Completed](#) · [Certificate](#)]

Introduction to Cybersecurity — Cisco Networking Academy [[Completed](#) · [Certificate](#)]

TECHNICAL SKILLS

Cybersecurity: Network Security · Cryptography · Security Operations Fundamentals · Secure Software Development

Programming: C++ · Python · SQL · JavaScript · TypeScript

Web: HTML · CSS · JavaScript · TypeScript

Databases: SQL Server · MySQL · MongoDB · NoSQL

Systems & Networking: Linux · Computer Networks · Network & Server Fundamentals

Tools: Git · GitHub · OOP · Data Structures · Problem Solving

SELECTED PROJECTS

Cryptography — C++

Implemented practical cryptography coursework including RSA, AES and DES, with separate C++ implementations for the algorithms and cipher work. github.com/mohamedabdulrhman/Cryptography

Hospital Management System — C++

Built a management application applying Binary Search Tree, Stack, Queue and OOP concepts to structure and manage application data. github.com/mohamedabdulrhman/data-structures

Music Player Application — C++

Developed a console-based music application with playlist and navigation functionality using object-oriented programming. github.com/mohamedabdulrhman/OOP

Menu-Driven OOP Applications — C++

Developed multiple menu-driven C++ applications to practice object-oriented design, program structure and interactive workflows. github.com/mohamedabdulrhman/OOP

ADDITIONAL TECHNICAL LEARNING

Completed learning in HTML, CSS, JavaScript, TypeScript, Git/GitHub, Linux, SQL Server, MySQL, NoSQL/MongoDB, networking and server fundamentals, alongside university coursework and cybersecurity training.

SOFT SKILLS

Problem Solving · Quick Learning · Team Collaboration · Communication
